## BIN REPLACEMENT REQUIREMENTS AND RECOMMENDATIONS

The following recommendations are intended to provide guidelines on the best possible placement of the bins. Because every location a bin is to be different, depending on customer site, physical size limitations, and available space, these recommendations may not always be entirely possible to follow. However, when placing a bin must meet ADA requirements and should promote ease of use and be in union with its surroundings. The bin should be level and the job results professional, presentable and fully functional.

## AFTERCARE INSTRUCTIONS

- + Regular cleaning with a soft cloth will keep the surface of your product looking new. Soapy water can be used to remove stubborn marks. Don't use abrasive or chemical cleaners as these may damage the surface finish over time.
- + Don't expose to sunlight.
- + Don't respond to the product with force against the possibility of damage, deformation.
- + Don't throw any cigarettes and flammable materials into the product.
